

*The price/performance leader
for growing businesses or departments*

IBM Netfinity 3500 M10

Highlights

Price/performance

A polished performer with the power and flexibility to match the needs of your growing business—and your budget

Manageability

Customizable ServerGuide setup utilities and top-rated¹ Netfinity Manager™ make this server easy to deploy and run

Large-system service

Renowned IBM service and support help minimize downtime and maximize satisfaction

IBM Small Business Program

Check it out: Competitively priced tools, e-business solutions and support services designed for growing businesses

Big capability at a minimal cost

An excellent choice for the small business or large enterprise workgroup that needs secure, easy-to-manage Internet messaging, a superior file-and-print or entry-level application server, the Netfinity® 3500 M10 can hold the line on cost, yet easily expand to match growing requirements.

Dual-processor capability gives the Netfinity 3500 M10 greater power to perform, and integrated dual channel SCSI increases I/O performance and leaves more PCI slots open for greater system flexibility. The Netfinity 3500 M10 boasts increased memory and data storage capability. For customers who demand high I/O performance, the Netfinity 3500 M10 supports 10,000rpm hard disk drives for faster data access and transfer.

Raising the standards for manageability

The Netfinity 3500 M10 comes with ServerGuide utilities for fast Microsoft® Windows NT® setup; Netfinity Manager software for local and remote management capabilities; and internal environmental monitoring and Predictive Failure Analysis® capabilities to help reduce downtime.

IBM service and support— one of the best values around

With the three-year, limited onsite IBM warranty², 90-day IBM Start Up Support, technology-enabled services like Update Connector, an extensive list of ServerProven™³ Solutions, Options by IBM and flexible financing packages, you get excellent server performance backed by outstanding service.

Service, support and offerings	3-year limited onsite warranty, 90-day IBM Start Up Support, IBM TechConnect®, IBM SystemXtra® ⁸ , Update Connector					
Predictive Failure Analysis support	Hard disk drives					

¹ Netfinity Manager had the top satisfaction marks, ranking first or tied for first in functionality, ease of use, and integration with the respondent's enterprise systems management and desktop management according to the 1998 User Ratings Survey of PC Servers performed by Datapro as part of the Gartner Group.

² For terms and conditions or copies of IBM's Statement of Limited Warranty, call 1 800 772-2227 in the U.S. and in Canada, call 1 800 426-2255. Limited warranty includes International Warranty Service in those countries where this product is offered. Telephone support may be subject to additional charges.

³ IBM makes no representations or warranties, expressed or implied, regarding non-IBM ServerProven products and services, and disclaims all such warranties including but not limited to Year 2000 readiness and the implied warranties of merchantability and fitness for a particular purpose. These products are offered and warranted solely by third parties.

⁴ MHz only measures internal clock speed, not application performance. Many factors affect application performance.

⁵ When referring to hard disk drive capacity, GB equals one billion bytes. Total user-accessible capacity may vary depending on operating environments.

⁶ Variable read rate. Actual playback speed will vary and is often less than the maximum possible.

⁷ Domino Solution offer valid until December 31, 1999 and may vary by model. Refer to Netfinity Web site for details.

⁸ SystemXtra is available to commercial and state and local government customers with valid credit. Eligibility for the Technology Exchange Option is based on total IBM PC hardware acquisition commitment for a 12-month period; minimum qualifying levels apply. Program is subject to change

without notice. Additional terms, conditions and limitations may apply. IBM Global Financing offerings are made available through IBM Credit Corporation in the US and other IBM subsidiaries and divisions worldwide.

IBM reserves the right to change specifications or other product information without notice. This publication could include technical inaccuracies or typographical errors.
