Welcome

IBM® InfoSphere™ Warehouse, Version 9.5.1 combines the strength of DB2® with the powerful business intelligence infrastructure from IBM. InfoSphere Warehouse provides a comprehensive business intelligence platform with tools that your enterprise and partners need to deploy and build next-generation analytic solutions.

System Requirements

See the detailed system requirements for InfoSphere Warehouse 9.5.1:

www.ibm.com/support/docview.wss?rs=3058&uid=swg21255099

Read the Installation Guide

Before you start the installation of InfoSphere Warehouse, Version 9.5.1, you must read the *InfoSphere Warehouse Installation Guide*. This book contains important installation instructions that are not available anywhere else. The book is available in PDF format from the Quick Start and Documentation CD. It is also contained in the Information Center:

publib.boulder.ibm.com/infocenter/db21uw/v9r5/index.jsp

Download the Installation Launchpad guide

InfoSphere Warehouse 9.5.1 includes two installation launchpads to help simplify the installation process. From the launchpads, you can run the DB2 installation program or the InfoSphere Warehouse installation program, depending on which components you are installing.

Additionally, the launchpads contain detailed instructions on how to perform the required pre-installation and post-installation tasks for all components. These instructions are not included with the *InfoSphere Warehouse Installation Guide*, but they are available in PDF format here:

www.ibm.com/support/docview.wss?rs=3058&uid=swg27010665

Get the latest documentation updates

Some important product documentation, including a list of known issues and problems, was not available when this product was shipped to manufacturing. The latest updates are available on the Web here:

www.ibm.com/support/docview.wss?rs=3058&uid=swg27012263
